THE ALTERNATIVE TO AESTHETIC MEDICINE

Welcome to Guinot

Guinot has over 50 years' experience in the professional beauty industry offering an alternative to aesthetic medicine. Globally renowned, our treatments and products are available in 70 countries worldwide. In the UK and Ireland, Guinot is stocked by over 800 salons, spas and health clubs and more recently a network of franchises. As a beauty salon and spa exclusive brand, our treatments and products are only available in accredited establishments.

We're proud to create effective, award-winning treatments and products that make a difference to your skin. Tailored prescriptions from Guinot-trained beauty therapists will enable you to achieve your skin care goals. With thousands of skin care combinations, our highly experienced therapists will analyse your complexion and discuss with you your skin care concerns to determine your bespoke prescription.

Our revolutionary salon treatments and after-care products are formulated with the best in skin care innovation to enhance and maintain treatment results at home. Your trusted beauty therapist will continue to evolve your prescription to your ever-changing needs, the seasons and any lifestyle changes.

The Guinot Story

Founded by chemical engineer René Guinot in 1963, our treatments and skin care products have revolutionised the world of beauty. In 1972, we pioneered the industry with the Hydradermie Machine, the first exclusive facial treatment method. Using a gentle ionisation process, it makes the skin more receptive to active ingredients subsequently applied thus delivering unparalleled, instant and visible results.

Guinot was the first brand to create skin care products containing our Cellular Life Complex, which contains 56 active ingredients. This ingredient complex was also used in hospitals to create new skin, including the treatment of serious burn victims.

Now a truly iconic company, Guinot has conquered the hearts of people all over the world with unique products and treatments containing active ingredients that are constantly on the cutting edge of science and technology. Guinot Research is constantly pushing the limits of effectiveness and performance to improve and find new treatment techniques and methods.

Guinot Treatments

As a treatment led brand, Guinot leads the way with our award-winning Hydraderm Cellular Energy Machine. By applying a gentle combination of dual ionisation and thermal currents, product ingredients are permeated deeper into the skin for undisputable results.

We also have our revolutionary techiSPA® machine with its heat-diffusing mechanism that increases treatment effectiveness and comfort. Helping to reduce cellulite, water retention and reduce fat, clients will see exceptional slimming results even after the very first treatment.

At Guinot Research and development is paramount because science is the driving force behind our brand. We are continually committed to developing treatment and product formulas. The manufacturing of all products are carried out with the highest standard of pharmaceutical accuracy and diligence, all within our own distribution plant based in France. Our laboratories are one of the few cosmetics manufacturing establishments in the world to have been certified by the international certification group Bureau Veritas, ISO 22716 and ISO 14001.

The active ingredients that are incorporated in our formulas are sourced from renewable plants and are preserved without parabens. We always test our formulas in our laboratory using human skin cells and never test on animals.
